

# Measurement Tools

A ruler is a tool to measure length.

This ruler measures inches on one side and centimeters on the other side.

A ruler is 6 inches (or  $\frac{1}{2}$  foot) long. It is about 15 centimeters long.

The pencil starts at 0 and ends between 5 and 6. It is  $5\frac{1}{2}$  inches long.

Here are some other measuring tools.

tape measures

yardstick and meterstick

The meterstick is a little longer.

odometer

An odometer measures the distance a car has traveled in miles or kilometers.
