## ***Close to 1,000*** Directions

### You need

- Digit Cards (1 deck per pair)
- *Close to 1,000* Recording Sheet (G10)

### Play with a partner.

- 1** Deal out eight Digit Cards to each player.
- 2** Use any six cards to make two numbers. For example, a 6, a 5, and a 2 could make 652, 625, 526, 562, 256, or 265. Wild cards can be used as any digit. Try to make two numbers that, when added together, give you a total that is close to 1,000.
- 3** Write these numbers and their total on the *Close to 1,000* Recording Sheet. For example,  $652 + 347 = 999$ .
- 4** Find your score. Your score is the difference between your total and 1,000.
- 5** Put the cards you used in a discard pile. Keep the two cards you did not use for the next round.
- 6** For the next round, deal six cards to each player. Make two more numbers that have a sum close to 1,000.
- 7** When you run out of cards, mix up the discard pile and use them again.
- 8** After five rounds, add your scores to find your final score. The player with the lower final score wins.

### Variation

Write each score with a plus or minus sign to show whether your total is less than or greater than 1,000. For example, if your total is 999, your score is  $-1$ . If your total is 1,005, your score is  $+5$ . The total of these two scores is  $+4$ . Your goal is to get a final score for five rounds that is as close to 0 as possible.
